Snapshot report

Under the agreement for 2014
Innisfail State College - Diverse Learning Centre

Our full 2014 agreement can be found here: www.innisfailsc@eq.edu.au

Our school strategies are on track to meet or exceed our targets

During 2014, we have focused on maximising the benefits of this funding for our students. After reviewing our Great Results Guarantee agreement, it is clear that we are on track to meet or exceed our targeted student outcomes. We continue to implement our strategies to ensure that every student succeeds.

Strategies implemented include:

- Employing and training a work placement specific teacher aide;
- At this stage, students are reporting on their weekly work experience opportunity on a template which also reports to the parents each week;
- Research has begun to develop an Employability Skills framework for Students with significant disabilities;
- Increasing the work placement opportunities for our students by making connections to a wider local business base from two to five;
- Four students have completed work experience this year, with two of them accessing two per week and the other two – one per week;
- Reading Program for older students incorporates workplace skill development – eg following an increasingly difficult set of instructions.
- Two students are being signed up for supported traineeships in 2015 with EPIC following connections being made for parents to access post-school support;

Our school strategies are showing substantial progress toward our targets

After reviewing our Great Results Guarantee agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this
funding for our students, and adjust our strategies as needed to ensure every student succeeds.

Strategies implemented include:

- Development of the final version of the employability skill framework for our students is still undergoing some development following research;

---

Our school strategies have shown limited progress toward our targets

During 2014, no progress was made toward our targeted student outcomes. We will review our strategies and make adjustments in order to better focus on maximising the benefits of this funding for our students.

Strategies implemented include:

- Sharing with employers is yet to occur but an additional two students will be in the programme in 2015 following interviews with parents in Term IV.
