Responses (Valid n = 3)

As a parent of a year 9 student, I see how much more relaxed the senior students are. I do hope this continues or even extends into Wednesday becoming a student free day for all school students. In ? Finland students only attend school 4/7 with high succe

Can work in their own time and good for mental health

Students come in and buy food and drinks

Negative impact.

Responses (Valid n = 1)

Tend to cause disruption when coming into supermarkets
